Not that - know of. We heard that the Binghamton deliveries were being cut off. Our haz waste OSC's in the field are still gathering information on who has what, but ATSDR identified "Do not Drink" for the organics but [Ex. 6 - Personal Privacy] don't have data from Test America at this point and we are still trying to identify the additional locations sampled. As of this afternoon I had not heard alternate water needed

Karen,

[Ex. 6 - Personal Privacy] is reporting that EPA will be providing Dimock residents with water. Is that true?
